

Any way you look at it...

The POLY-GUARD Cap Is Unsurpassed in Meeting Safety Specifications

POLY-GUARD, manufactured by Apex Safety Products, pioneer and leader in head protection, meets or exceeds these specifications: ANSI Z89.1-1969 Class A, ANSI Z89.2-1971 Class B, EEI AP-1 1961, USAS Z2.1-1959, GGG-H-142G, GGG-H-177A, CSA Z94.1-T and all state and district specifications.

POLY-GUARD is unique...any way you look at it!

- Flat facade for company identification accomodates a decal or hot stamping.
- Scientifically engineered for performance, POLY-GUARD was also designed to deliver quality at a competitive price.
- Lightweight for comfort...13 ounces.
- Opening provided for attaching an elastic chinstrap.

- Tough, high density poly-ethylene shell is injection molded.
- Six colors: white, red, yellow, blue, green, orange.
- The Apex diamond and structural ribs are molded into the crown to assure maximum strength and rigidity.
- Rain trough prevents water from running down the back of the neck.

- Specifications met and the date manufactured are molded inside each cap.
- Nape strap, an integral part of the four point suspension, holds the cap securely and comfortably on the head.
- Vinyl brow pad is foam-backed for comfort and perforated for moisture absorption.
- Head band quickly adjusts from head size 6½ thru 8.
- The two-piece molded suspension assembly is easy to clean and maintenance-free.

**For quality and dependability,
look for the Apex diamond.**
